Intended use or uses of the construction product, in accordance with the applicable harmonized technical specification, as foreseen by the manufacturer:

Mechanical fasteners, including nails, screws and staples, intended for the fixing of gypsum plasterboard, gypsum boards with fibrous reinforcement, to timber and metal, as appropriate, in building construction works. The fasteners secure the board to the framing enabling its surface to be finished by jointing or plastering to receive decoration. They can also be used for the construction of the framing and for the connection between substructure and load bearing components and for fixing boards together. Mechanical fasteners contribute to the stability of the assembly. In acc. to EN 14566:2008+A1:2009.
